

# OverPax by Overdrive

## Moving People Safely

A people-centric solution designed for people on the move. Overpax equips workers, children, or even grandparents with the ability to send precise geolocation information and enable real-time movement tracking to ensure their safety, always.

### Benefits

**Safety**

Have peace of mind in knowing where your loved ones are safe and well even when you are not with them.

**Security**

Receive updates on your loved one's status, condition, and location, enabling immediate response in case of emergencies.

**Efficiency**

Stay in touch through any smart device anywhere, letting you enjoy hassle-free connectivity.

## A Real-Time Location Tracker at its Core

OverPax's wide range of solutions focus the power of real-time GPS tracking into the hands of passengers traveling on school buses, company vehicles, and people movement, accessible on any device – anytime, anywhere.

### Employee Transportation System

Our award-winning Employee Transportation System offers you end-to-end management on every aspect of fleet operation. We keep an eye on your employee's commute, planning destination routes for drivers, and making supervisors' jobs simpler than before.

**Auto plan routes and schedules**

**Prevent abuse of company transportation**

**Eliminate unnecessary paperwork**

**Forecast daily bus services and observe trends**

**Promote a stress-free commute for employees**

## School Bus System

Overpax empowers schools, parents, and bus operators to keep a watchful eye on their students and passengers while commuting between homes and schools. Its real-time monitoring capabilities ensure effective management of transport operations and optimization of bus routes - putting safety as our topmost priority.

**Safely transport passengers**

**Monitor driver's behavior and habits**

**Manage transport timing and minimize waiting time**

**Quick communication and transparent operation**

**Automated routing, planning, and scheduling of bus**

**Minimize downtime and unnecessary costs**

## Eldery Tracking

OverPax gives greater protection as it offers monitoring solutions to our elderly folks to keep them safe at all times. Our solution allows you to keep track of their real-time movement, whereabouts, and even health conditions, sending alerts if no movement is detected over some time as well as detecting any fall to enable faster response in potential emergencies.

**Prevent seniors from wandering off to unfamiliar places**

**Provide protection even when you are not around**

**Increased immediate access to health care**

**Reduce the impact of health-related emergencies**

**Peace of mind in knowing your loved ones are well at home**

## #Locator

Overpax enables you to enhance social distancing and ensure these measures are adhered to most effectively. It is as simple as a Bluetooth wearable linked to a mobile app that allows any organization to obtain information on any social movements within a specified area.

**Receive updates on people movement, activities, and location**

**Ensure people are safe within a designated area**

**Aids in safe social distancing and contact tracing**

**With OverPax, you are in good hands.**

### **Hassle Free Connectivity**

Overpax is a low cost, ultra-low power system that is compatible with all smart devices and provides commuters real-time GPS location data to the people who care about them – without affecting the battery life or usage of their mobile devices.

### **24/7 Access, Real-Time Location Services**

OverPax is designed as a simple, elegant solution that simply works – whenever and wherever it's needed. With 24/7 access to real-time location data, even overnight drives are covered by OverPax's unrivalled GPS tracking abilities.

### **Your commuters' safety is our priority**

Overpax focuses on keeping employees, children and the elderly safe through real-time GSP tracking and vehicle monitoring – all across Singapore.

Provide your loved ones the extra security they need with OverPax  
Enhance safety tracking with Overdrive today!
